

Course Description

AMOS Material Management 2 Training

Course Description

This course is focused on the needs of AMOS users familiar with the receiving and warehousing of material, but it is also highly recommended for all staff of the Purchasing Department, Spares and Logistics.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Define and administer new locations on existing stores
- ✓ Change the location of parts within any given store
- ✓ Create and confirm pickslips as well as cancel bookings related with pickslips
- ✓ Define the ideal rotatable and consumable stock quantity for outstations and create stock replenishment pickslips
- ✓ Define, build and disassemble kits
- ✓ Issue manual repair orders from the store
- ✓ Book the receiving of purchased, repaired, modified and exchanged parts
- ✓ Book the distribution and return of tools from store to mechanics
- ✓ Control shelf-limited rotatables and batch expiry dates of consumable and expendable parts
- ✓ Scrap rotatables and consumables from stores or from open orders
- ✓ Create scrap reports for a given period
- ✓ Generate inventory lists and book inventory differences
- ✓ Create incoming and outgoing shipments.
