

Course Description

AMOS Key User Awareness Session

Course Description

This training has been specifically designed for AMOS Key Users, Project team members and AMOS Competence Center members to give a high level introduction to AMOS. The training is scenario based so that the participants can see how information flows through AMOS for the benefit of different Business Units. The trainer does not go into any great detail or depth of individual programs but gives a general introduction.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Have a general overview and understanding of the major programs in AMOS.
- ✓ Understand the high level data flows within AMOS
- ✓ Understand AMOS as an integrated system

AMOS
