

Course Description

AMOS Virtual Classroom

Counter Correction

Course Description

This Virtual Classroom training is designed to demonstrate how Counters can be corrected. Participants will have an overview of the different Counter Types and different AMOS programs needed to correct Counter discrepancies.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ understand the difference of Counter Types.
- ✓ understand the difference between actual and historical data.
- ✓ understand what data needs to be corrected.
- ✓ use different programs in order to correct Counters.

Who should attend

Experienced AMOS Administrators or Engineers who are responsible to correct Counter discrepancies.
