AMOS Virtual Classroom

Taskcard Initialisation & Next Due Date Calculation

Course Description

Pre-Initialisation, Next due, New Time Requirement, New Revision etc. there is more than one way to set or change the due date of a Taskcard. But after such a change what happens when the Taskcard is revised?

This training shows 3 different cases of changing a due date of Taskcards and perform a revision of this Taskcard.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ calculate the next due date of your Taskcard after having extended its due date and created a new revision,
- ✓ calculate the next due date of your Taskcard after having changed its due date and then created a new revision

Duration

2– 3 hours incl. breaks
