

Course Description

AMOS Virtual Classroom

Structural Damage

Course Description

This course is designed to explain the program “Structural Damage” which can be used to manage the Damages to your Aircraft and Rotables. It gives the possibility to mark damage locations to pre-scanned pictures, and then to produce reports or a Dent & Buckle Chart. It interfaces with other AMOS APN’s for a seamless updating of Damage data.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Understand the program overview
- ✓ Search for existing damage to A/C or Parts
- ✓ Enter Damage to A/C or Parts
- ✓ Make links to the Damage entries
- ✓ Work with the different Tabs and Charts
- ✓ Produce Damage Reports
- ✓ Administration of Charts and Workflows

Who should attend

Anyone involved with Structural Damage.
ie Engineering, Structures, MCC, Line & Base.
