

AMOS Online Training Requirements

To guarantee a smooth flow of AMOS Online make certain that the following items/installations are available:

- State-of-the-art PCs (with a minimum screen resolution of **1280 x 1024**) for each participant is required.
- Internet connection with a minimum of **1MBit speed** is required.
- Internet Browser (like Internet Explorer or Firefox) is required.
- Download via Internet Browser is required.
- Headset (incl. a microphone) for each participant is required for VoIP (Voice over IP). If speakers are used, the microphone **must be muted** during the whole session.
- Each participant must pass our System Test (test of headset & microphone).
- Each participant needs a valid email address for the invitation and for authentication.
- Each participant needs to review our Quick Reference for Online Training prior to every AMOS Online Training (link will be send with the invitation mail).
- A connection to an AMOS Training environment with a reloaded training snapshot is a big advantage (required for exercises performed by the participant(s))
- “AMOS Basics Training” is a pre-condition to participate.
- Business knowledge of the training topic is required.
- A quiet environment is an advantage.

Note: SWISS-AS cannot be held responsible for any restrictions (e.g. low bandwidth, firewall settings etc.) on the customer's side.
