

# Swiss-AS Training – Course Description

1/1

## AMOS Advanced Reorder Proposal – for End Users – VCT

This training has been developed to show how consumptions, demands and the different settings on the part level will have an impact on the proposed order quantity when Advanced Reorder Proposal is used.

NOTE: This VCT does not deal with the configuration and setup of Reorder Proposal Configuration, APN 459.

### Course Objectives

Upon completion of this course, you will be able to:

- ✓ Understand the influence of different settings on the proposed order quantities
- ✓ Comprehend how the different programs influence the calculation of the suggested Order Quantity to then proceed with the procurement process for material needing reordering
- ✓ Understand the logic that drives the Order Quantity to change
- ✓ Understand the calculation & influence of Safety Stock

### Course Topics

- Part Administration (APN 59)
- Advanced Reorder Proposal (APN 899)
- Parts Consumption Forecast (APN 204)
- Order Management (APN 2015)
- Price Book (APN 325)
- AMOS Scheduler (APN 2606)
