

Course Description

AMOS Virtual Classroom

Workorder Approval

Course Description

This Virtual Classroom Training is designed to demonstrate the possibilities of using the generic approval system to support the workorder process.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Define rules and responsible users for approval.
- ✓ Automatically issue approval requests on pre-defined trigger point when the rule conditions are met.
- ✓ Indicate the approval status and required approval step for each workorder.
- ✓ Escalate and de-escalate approval request.
- ✓ Approve, reject and revoke approval requests.

Course Topics

- Approval Control Configuration – APN 2111
- Approval Control Board – APN 2110
- Different use cases

Who should attend

Everybody who is interested in using Approval Control for the workorder process.
