

Course Description

AMOS Virtual Classroom

View / Edit Workpackage

Course Description

This course is designed to explain the program “View/Edit Workpackage”. Starting from a workpackage in “Maintenance Forecast” you will see how different kinds of Maintenance Events are handled, performed and closed.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Set up scheduled jobs to retrieve the data you require
- ✓ Set parameters and licenses that are required for “View/Edit Workpackage”
- ✓ Assign & perform all kinds of maintenance events
- ✓ Find relevant reports

Duration

2.5 – 3 hours incl. breaks
