

# Swiss-AS Training – Course Description

1/2

## Line- & Base Maintenance (combined)

This course is a combination of the “Line Maintenance” and the “Base Maintenance” training content. It has been designed to give key users and technicians a comprehensive overview of all the AMOS programs that they need to perform their work in the Line Maintenance and the Base Maintenance environment.

### Course Objectives

Upon completion of this course, you will be able to:

- ✓ Use Stock Information, Order Tracking and Parts Tracking to search for information about materials
- ✓ Request, confirm and cancel a pickslip
- ✓ Move unservicable parts between stations using the Transfer Order
- ✓ Open, transfer and close workorders
- ✓ Search for any workorders in Workorder Information System
- ✓ Record structural damages
- ✓ Book the Removed in Serviceable Condition Process in AMOS
- ✓ Perform the removal/installation of components
- ✓ Use Technical Assistance to report issues within AMOS
- ✓ Understand the use of the Workpackage and how to view the contents
- ✓ Refer to programs such as Experience Sheet, Modification Status and Configuration Management for troubleshooting information purposes
- ✓ Monitor the health of the fleet using Fleet Tracker and report using Aircraft Status Report
- ✓ Track Oil Consumption Statistics
- ✓ Search for and report on publications held at your station
- ✓ Request holiday or overtime slots and report sick leave using AMOS
- ✓ Book your working time against various maintenance events
- ✓ Create a finding on a taskcard, defer and close a taskcard
- ✓ Handover tooling between technicians as part of a tool control function
