

Stores WBT

This e-learning course is designed to give a comprehensive overview of all the AMOS programs required to perform the work in the stores environment.

It is also highly recommended for staff of the Purchasing Department, Spares and Logistics.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Check stock of the parts at different stations and stores
- ✓ Follow-up the history of an order including the creation of reminders
- ✓ Control the shelf life of parts that are in the store and produce the required reports
- ✓ Control the hand out of tools to the shop floor and ensure they are all returned
- ✓ Move parts within a station and its stores
- ✓ Request, issue and move parts from one station to another
- ✓ Create shipments to track parts to and from external companies and between your stations
- ✓ Receive parts (consumables, rotables, purchased, repaired, modified, exchanged) into your company
- ✓ Scrap rotables and consumables from stores or from open orders
- ✓ Create scrap reports for a given period
- ✓ Define, build and disassemble kits
