

Swiss-AS Training – Course Description

1/1

AMOS Advanced Report Designer Training

Now that you've mastered the basics of Report Designer, it's time to level up. In an era of data-driven dashboards, we'll dive into creating impactful visuals using charts and gauges. We'll also tackle advanced topics like multi-selection logic and tailoring complex system reports to your needs. If you're ready to move beyond the essentials and become a power user, this course is for you.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Handle and use graphical elements (e.g. pie chart, gauge etc.)
- ✓ Create reports used in desktop widgets
- ✓ Handle multi-selection elements in variables
- ✓ Customize complex system reports
