Swiss-AS Training – Course Description

AMOS Base Maintenance MRO Training

This course is designed to give technicians a comprehensive overview of all the AMOS programs they need to work in the base maintenance environment of an MRO organization.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Setup the environment to company needs
- ✓ Open, transfer, and close workorders
- ✓ Request, confirm, and cancel a pickslip
- ✓ Search for any workorders in Workorder Information System
- ✓ Record structural damages
- ✓ Perform the removal/installation of components
- ✓ Use Technical Assistance to report issues within AMOS
- ✓ Book your working time against various maintenance events
- ✓ Understand the use of the Workpackage and how to manage the contents
- ✓ Create a finding on an event, defer and close an event
- ✓ Refer to programs such as Production Control Dashboard
- ✓ Handover tooling between technicians as part of a tool control function
- ✓ Request holiday or overtime slots and report sick leave using AMOS
