Swiss-AS Training – Course Description
AMOS Data Structure Training

The training will introduce the data structure of the major AMOS modules and explain where the data is located and how it is structured. Useful tips & tricks on how to quickly understand the data structure of the AMOS modules are also covered.

This training is crucial and indispensable for everybody that wants to write effective, correct and useful reports in AMOS. The course contains different programs and workflows needed for a successful application of AMOS in this area.

Course Objectives
Upon completion of this course, you will be able to:

- Efficiently and effectively, use the “Remote Server-Watch”, “Database Explorer” and “Data Transfer File Layout” programs. This will enable you to understand in which tables AMOS stores specific data and how easily you can access it
- Comprehend the data structure of the most important AMOS programs
- Start writing your own reports in AMOS with the correct know-how you will have acquired during this course

Course Topics
- Online User Watch (APN 7)
- Live Logging Console (APN 8)
- Database-Explorer (APN 11)
- SQL Central APN 29)
- Data Source Editor (APN 1976)

Who should attend
AMOS Administrators (and those who want to become an Administrator). Any person from your IT Department that is interested in understanding AMOS data structures in order to write their own reports, correct data etc.

Prerequisite
AMOS Basic Training & Common knowledge of AMOS. SQL knowledge is essential and required to attend the course.
