

Swiss-AS Training – Course Description

1/2

AMOS Hangar Planning Training

This course has been designed to demonstrate the setup and usage of tools and programs to configure and plan hangar-based activities.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Define your stations and hangars as plannable resources
- ✓ Define each maintenance position and block areas as unusable, such as seat storage or power transformers
- ✓ Reserve maintenance positions for future workpackages
- ✓ Split reservations to accurately show the A/C moving between maintenance positions
- ✓ Block maintenance positions for non-A/C related maintenance

Course Topics

- Hangar Configuration (APN:2662)
- Resource Configuration (APN:732)
- Hangar Planning (APN:2677)
- View / Edit Workpackage (APN:58)
- Address Administration (APN:53)

Who should attend

AMOS users who are responsible for the configuration of hangar spaces and hangar-based activities planning.
