Swiss-AS Training – Course Description

Line Maintenance & Base Maintenance combined Training

This course combines the “Line Maintenance” and “Base Maintenance” training content. It has been designed to give key users and technicians a comprehensive overview of all the AMOS programs they need to perform their work in the Line Maintenance and Base Maintenance environments.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Use Stock Information, Order Tracking, and Parts Tracking to search for information about materials
- ✓ Request, confirm, and cancel a pickslip
- ✓ Move unserviceable parts between stations using the Transfer Order
- ✓ Open, transfer, and close workorders
- ✓ Search for any workorders in Workorder Information System
- ✓ Record structural damages
- ✓ Book the Removed in Serviceable Condition Process in AMOS
- ✓ Perform the removal/installation of components
- ✓ Use Technical Assistance to report issues within AMOS
- ✓ Understand the use of the Workpackage and how to view the contents
- ✓ Refer to programs such as Experience Sheet, Modification Status, and Configuration Management for troubleshooting information purposes
- ✓ Monitor the health of the fleet using Fleet Tracker and report using Aircraft Status Report
- ✓ Track Oil Consumption Statistics
- ✓ Search for and report on publications held at your station
- ✓ Request holiday or overtime slots and report sick leave using AMOS
- ✓ Book your working time against various maintenance events
- ✓ Create a finding on a taskcard, defer and close a taskcard
- ✓ Handover tooling between technicians as part of a tool control function

Course Topics

- Stock Information (APN:221)
- Picklip Request (APN:225)
- Pickinglist Confirmation (APN:2612)
- Order Tracking (APN:1328)
- Workorder (APN:1418)
- Component Booking (APN:3296)

- Structural Damage (APN:786)
- Technical Assistance (APN:869)
- Parts Tracking (APN:188)
- Experience Sheet (APN:217)
- Tool Handover (APN:1507)
- Modification Status (APN:231)
- Configuration Control (APN:3128)
- Configuration Definition (APN:2818)
- Fleet Tracker Dashboard (APN:3126)
- View/Edit Workpackage (APN:58)
- Production Control Dashboard (APN:2749)
- Work Time Tracking (APN:1131)
- Workpackage Browser (APN:30)
- Aircraft Status Report (APN:476)
- Oil Consumption Statistics (APN:839)
- Staff Time Management (APN:979)
- Publication Management – Publication reports (APN:565)
- Personal Data Sheet (APN:153)

Who should attend	Key users and maintenance staff working in Line- and/or Base Maintenance
Prerequisite	AMOS Basics Training
Skill	Basic
Type	Classroom
Duration	3 days
Times	Please check our website www.swiss-as.com/services/training and/or your course invitation for the exact time.
