Swiss-AS Training – Course Description

AMOS Advanced Reorder Proposal – Setup and Configuration– VCT

This Virtual Classroom training is designed to provide a comprehensive overview of the setup required for utilizing the Advanced Reorder Proposal. It offers an in-depth exploration of the underlying logic and statistical forecasting methods, as well as the role of user input in the process.

Course Objectives

Upon completion of this course, you will be able to:

- ✓Understand the purpose of Advanced Reorder Proposal
- ✓Perform the set-up in Reorder Proposal Configuration
- ✓Perform the Set-Up in Part Administration
- ✓Understand the general logic of optimal order quantity

The VCT contains a small demonstration of the set-up as well used in Advanced Reorder Proposal.

Course Topics

- Reorder Proposal Configuration (APN:459)
- Part Administration (APN:59)
- Advanced Reorder Proposal (APN:899) (minimal, just to demonstrate the effect of the configuration)

Who should attend

Key Users who are defining the policies for ordering aircraft parts.
