Swiss-AS Training – Course Description

AMOS Advanced Reorder Proposal – for End Users – VCT

This training has been developed to show how consumptions, demands, and the different settings on the part level influence the proposed order quantity when utilizing the Advanced Reorder Proposal functionality.

NOTE: The configuration of the Advanced Reorder Proposal is not included in this training.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Understand the influence of different settings on the proposed order quantities
- ✓ Comprehend how the different programs influence the calculation of the suggested Order Quantity to then proceed with the procurement process for material needing reordering
- ✓ Understand the logic that drives the Order Quantity to change
- ✓ Understand the calculation & influence of Safety Stock

Course Topics

- Part Administration (APN:59)
- Advanced Reorder Proposal (APN:899)
- Parts Consumption Forecast (APN:204)
- Order Management (APN:2015)
