Swiss-AS Training – Course Description

AMOS Material Allocation – VCT

This Virtual Classroom Training has been designed to give a full overview of the Material Allocation function in AMOS and how it can be used to support your processes for Material Management.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Activate the Material Allocation logic in AMOS including Picking List Management
- ✓ Use Logistics Configuration to define rules that will manage the allocation of parts to maintenance events based on Material and / or Order Availability
- ✓ Use Parts Consumption Forecast to Manually allocate parts or confirm Automatically allocated parts
- ✓ Use Picking List Management to allocate parts and book them against the request

Course Topics

- Logistics Configuration (APN:2629)
- Parameters (APN:1442)
- AMOS Scheduler (APN:2606)
- Parts Consumption Forecast (APN:204)
- Approval Control (APN:2110, 2111)
