Swiss-AS Training – Course Description

AMOS Picking List Management – VCT

This Virtual Classroom Training introduces the fundamentals of Picking List Management in AMOS. Participants will learn how to configure picking list processes, manage material allocation and stock issuance, use drop locations and pick-up confirmations, generate reports, process returns, and automate Pickslip Requests to support efficient maintenance and logistics operations.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Activate the Picking List logic
- ✓ Define the rules of Pickslip issue, assign and Picking List Issue
- ✓ Define the rules of material allocated to a picking list
- ✓ Use the Picking List Management program to manage the handout of stock
- ✓ Understand how the Picking list affects the part availability visibility
- ✓ Define and use Drop & Transit Locations
- ✓ Generate reports to accompany issued stock
- ✓ Use Pick-Up Confirmation for the production staff to book parts
- ✓ Return unused parts to the store
- ✓ Set up AMOS to automatically issue Pickslip Requests
