

Reliability Data SPEC2000 Export VCT

This Virtual Classroom has been developed to show how reliability data can be exported according to Spec2000 Chapter 11 standards to then send the information to OEM(s).

An overview of the needed setup together with the involved daily business will allow to understand the required preconditions and the involved tasks.

Course Objectives

Upon completion of this course, you will be able to:

- ✓ Setup AMOS (parts, addresses, documents etc) to meet the required preconditions to then use the AMOS SPEC2000 Chapter 11 export feature
- ✓ Understand what are the daily AMOS users activities involved in the reliability data generation/collection
- ✓ Setup the needed scheduler task to export the reliability data
- ✓ Review the files that AMOS produces
- ✓ Get an overview of the involved AMOS reliability programs

Course Topics

- ✓ Part Administration (APN 59)
- ✓ Address Administration (APN 53)
- ✓ Basic Data Administration (APN 18)
- ✓ Definitions (APN 397)
- ✓ Part Reliability (APN 399)
- ✓ AMOS Scheduler (APN 2606)
- ✓ Workorder (APN 1418)
- ✓ Rotables Label Booking (APN 150)
- ✓ Parts Tracking (APN 188)
- ✓ Aircraft Utilization (APN 206)
- ✓ View Edit Modifications (APN 63)
- ✓ Parameter Setup (APN 1442)
- ✓ Failure Confirmation (APN 354)
- ✓ Systems Reliability (APN 399)

Duration

2.5 – 3 hours incl. breaks

Who should attend

AMOS users involved in reliability review and responsible of sending reliability data to the aircraft manufacturer

Prerequisite	AMOS Basic Training. AMOS reliability programs knowledge is beneficial
Type	Virtual Classroom
Times	Please check our website https://www.swiss-as.com/services/training and/or your course invitation for the exact time.
Price and Registration	Contact the AMOS Training Department at AMOS_Training@swiss-as.com .
