AMOS PRESS RELEASE

—

NEW CARGO CUSTOMER ON BOARD – SWISS AVIATION SOFTWARE WELCOMES FARNAIR TO THE AMOS COMMUNITY

MAY 2010

—

AMOS IMPLEMENTATION AMONG NEIGHBOURS

Swiss AviationSoftware (Swiss-AS) welcomes FARNAIR as the latest member of its solid customer base. As Swiss-AS and FARNAIR are both situated at the EuroAirport, Basel, the project team believes that AMOS will be implemented extremely quickly and smoothly. The project will take 2-4 months and the go-ahead is scheduled for the beginning of June, 2010.

"The FARNAIR Group has decided to go for AMOS because it has been created by end users which makes the system very user-friendly. The decision was influenced by the fact that AMOS is widely used throughout the aviation industry and that Swiss-AS is also based at the EuroAirport, Basel" said Guy Girard, CEO of FARNAIR.

The selection of AMOS by FARNAIR strengthens Swiss-AS' position as the market leader in Europe and expands the proportion of its customers focused on cargo business.

"We are honoured to have been selected by FARNAIR" expressed Ronald Schaeuffele, CEO of Swiss AviationSoftware. "Partnering with our neighbours FARNAIR once more demonstrates the versatility of AMOS being not only suitable for airlines transporting passengers but also cargo."

ABOUT FARNAIR

FARNAIR operates under its established trademark "FARNAIR Europe" which includes the two airlines FARNAIR Switzerland (Basel, Switzerland) and FARNAIR Hungary and in addition FARNAIR Handling (both Budapest, Hungary).

—

Having been in the aviation business for more than 25 years, FARNAIR's headquarters is based at the EuroAirport Basel, Switzerland. Its core business is express air cargo transport and logistics in Europe. Furthermore, FARNAIR provides high quality individualised passenger transportation for customers such as sporting teams, orchestras or government organisations.

The fleet currently comprises 16 aircraft including ATR 72-200, ATR 42-320, BEECH 1900 and F27 MK500.
