

AMOS PRESS RELEASE

SUCCESSFUL GO-LIVE OF AMOS AT SWISS-AS' FIRST RUSSIAN CUSTOMER - STC RUSSIA

JUNE 2010

IMPLEMENTATION OF AMOS SUCCESSFULLY COMPLETED AT STC RUSSIA

After 15 months of project work the Go-Live of AMOS took place in St. Petersburg (Russia), STC Russia's headquarters. By means of a simultaneous roll-out, the airline's line & component maintenance, logistics, and engineering departments went live at the end of February 2010.

More than 150 AMOS users have begun using the new MRO software in their daily business. Owing to the successful implementation of AMOS user efficiency could be substantially increased and business processes could be optimized by deploying bar-coding, document scanning and graphical planning tools which are inherent in AMOS. Additionally, AMOS has helped to standardize STC Russia's business processes to industry best practices - thereby ensuring compliance with EASA regulations.

STC RUSSIA BEING THE FIRST RUSSIAN CUSTOMER OF SWISS AVIATION SOFTWARE

STC Russia decided to implement all AMOS modules and is now the first airline in Russia making extensive use of the state-of-the-art MRO software of Swiss-AS.

Having an AMOS customer in Russia will further strengthen Swiss-AS' market position and meet its objective to gain industry-wide market acceptance and reach global presence.

ABOUT STC RUSSIA

Based in St. Petersburg, STC Russia is the largest state-owned air company in Russia. With around 3 million passengers per year, STC Russia is one of the leading Russian airlines. The airline schedules flights to 70 domestic and 58 international destinations in 29 countries all over Europe and Asia which leads to an overall length of air-routes of 1'300'000 km. STC Russia operates scheduled and charter passenger flights from St. Petersburg and its main hub Moscow. Founded in 2004, STC Russia currently operates a fleet of 24 Aircraft consisting of types B767, B737, A319, A320 and AN-148, which makes the Russian airline the first operator of this innovative regional airplane.

ABOUT SWISS AVIATION SOFTWARE AND AMOS

AMOS is a fully integrated maintenance management system developed and distributed by Swiss AviationSoftware Ltd. As a 100% subsidiary of Swiss International Air Lines Ltd., Swiss-AS has become a fixture in the MRO software market. In autumn 2009, AMOS celebrated its 20th anniversary. AMOS is the answer to the complex and cost intensive maintenance, engineering and logistics requirements of any modern airline and MRO provider.

In 2010, more than 80 customers from all over the world depend on AMOS and gain from its continuous growth and technological cutting edge, which makes AMOS the industry-leading MRO software in Europe and one of the best-selling solutions world-wide. Its solid customer base ranges from pure operators of all sizes, major low-cost, regional and flag carriers to large airline groups and MRO providers.
