

Swiss-AS Press Release

AeroLogic takes off with AMOS

February 2015

At a glance

- German cargo airline joining the AMOS community
- Lean "as-is" implementation with focus on core modules

AeroLogic adopts Swiss-AS' AMOS

Swiss-AS is pleased to announce that the German cargo carrier AeroLogic has selected AMOS as their future standard MRO software solution.

AeroLogic, an air cargo operator serving the networks of DHL Express and Lufthansa Cargo, will use AMOS to fulfil its airworthiness requirements as a CAMO organisation.

Ronald Schaeuffele, CEO of Swiss-AS, comments: "AMOS is designed to cater not only to aviation companies operating large numbers of aircraft and having a significant level of vertical integration, but also to meet the requirements of airlines with a smaller fleet, and having no in-house maintenance. Being a cargo airline, AeroLogic's decision to choose AMOS simply highlights the versatility of the system."

In view of the envisaged lean AMOS implementation, it is of benefit that only a limited number of AMOS users need to be trained since the implementation will primarily concentrate on the AMOS core modules. AeroLogic is a lean organisation and AMOS will not only support this approach, but also provide industry best-practice processes as a basis for further efficiencies.

About AeroLogic

The cargo airline AeroLogic is located at the Leipzig / Halle airport (Germany) and started operations in 2009.

The joint venture AeroLogic was founded by Lufthansa Cargo and DHL Express. AeroLogic operates its fleet in Europe, Asia and North America. The young fleet is composed of eight Boeing 777 freighters, all delivered in 2009 and 2010.

About Swiss AviationSoftware and AMOS

AMOS is a comprehensive, fully-integrated MRO software solution being developed and distributed by Swiss AviationSoftware. Swiss-AS, a 100% subsidiary of Swiss International Air Lines, has more than 130 customers worldwide and belongs to the industry-leading MRO software providers. Our loyal customer base includes pure operators of all sizes, major low-cost, regional and flag carriers, large airline groups and MRO providers.
